September 26, 2009
8:30 AM to 4:30 PM

Location:

Joslin Diabetes Center
One Joslin Place
Boston, MA 02215

Sponsored by:

**American
Diabetes
Association**
Cure • Care • Commitment®
 **Joslin Diabetes Center**

TARGET AUDIENCE

The American Diabetes Association and the Joslin Diabetes Center have designed this program to provide school nurses with a deeper understanding of the issues that impact school-age children and adolescents with diabetes and to provide tools to create and implement effective diabetes school management plans for children and adolescents with diabetes.

LEARNING OBJECTIVES

Upon completion of this program, participants will be able to:

- Describe the etiology and pathophysiology of both type 1 and type 2 diabetes in youth
- Identify current treatment plans and tools utilized in the management of diabetes in children and adolescents and apply them to the school setting
- Define the purpose of Diabetes Medical Management Plans, 504 plans, and IEPs and list 2 resources available to develop them
- List the primary causes for the increase in type 2 diabetes in children and adolescents

CONTACT HOURS

7.0 contact hours will be provided at the conclusion of the program.
